FOOTNOTES

FIG. 5

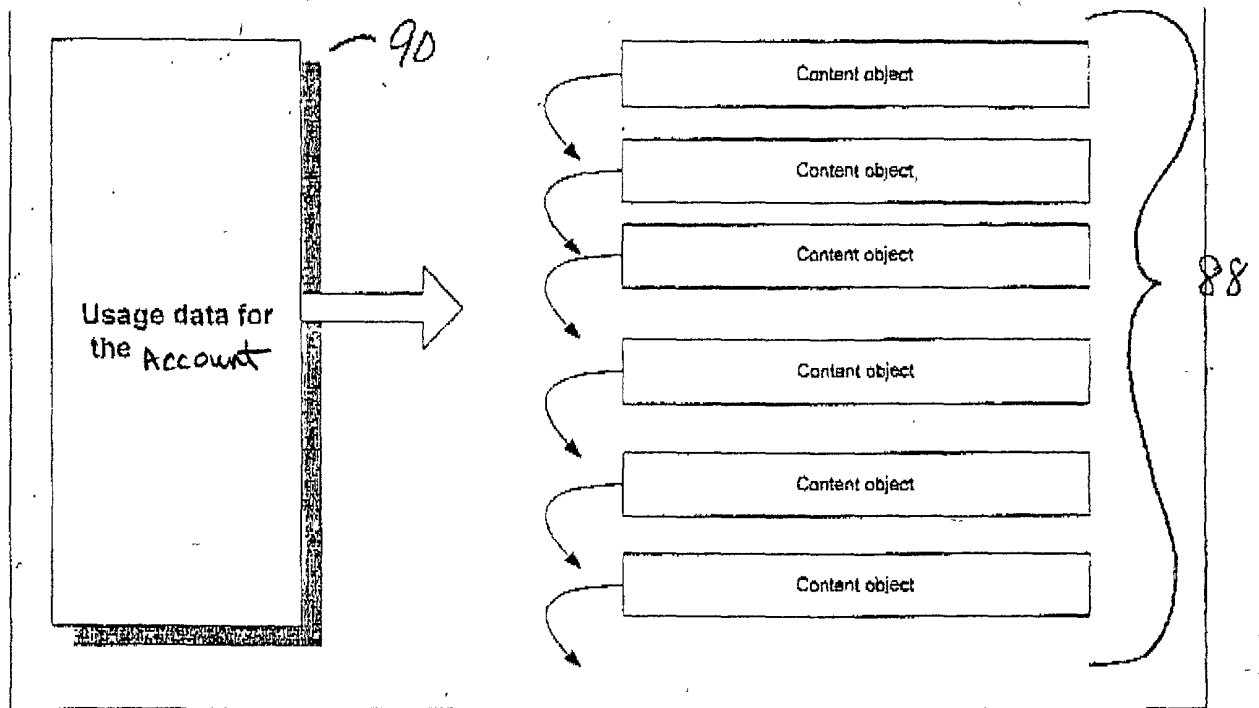

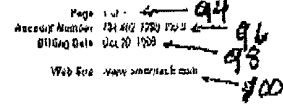

Figure 1 displays 12 histograms showing the distribution of the number of non-zero elements in the vector x for different values of n and m . The histograms are arranged in a 6x2 grid. The columns are labeled $n=10$ and $n=20$. The rows are labeled $m=10$, $m=20$, $m=30$, $m=40$, $m=50$, and $m=60$. The x-axis for all histograms is 'Number of non-zero elements' ranging from 0 to 100. The y-axis is 'Frequency' ranging from 0 to 10. The distributions are generally bell-shaped and centered around 50, with the frequency increasing as n and m increase.

News You Can Use

LOCAL TOLL INFO

Our records show that you have AT&T as your carrier for local toll service.

LONG DISTANCE INFO

Our records show that you have selected AT&T as the prescribed carrier for all of your long distance services.

IMPORTANT NEWS

We appreciate your effort to pay your bill on time. To stay current, remember that nonpayment of basic local service or \$1.00 or more of unpaid toll service for six consecutive months may result in discontinuation of local service. Other services may be restricted if not paid. We also may take action to collect unpaid accounts. Questions? Call us at the number on your bill.

INP PAYMENT CREDIT

Your local Number Portability (INP) surcharge this month includes a \$0.04 credit per line for interest on the INP overpayment that was returned to you. This lowers the INP surcharge this month to \$0.74 per line. The normal charge of \$0.78 per line will appear on your next bill. INP enables customers to keep their phone number if they select a new local phone carrier.

BEST TIMES TO CALL

Due to high call volume experienced on Mondays and Tuesdays, it is generally easier to reach us Wednesdays through Fridays.
